MATTHEW HERNANDEZ

Full stack Developer

☎ +1 (224) 328 1725   @ matthewhernandez1k4@gmail.com   ⚲ Killen, TX

SUMMARY

Full Stack Developer with over 5 years of experience in JavaScript and their frameworks - Vue, React and Next. Passionate about leveraging technology to drive innovative solutions in hybrid cloud and AI environments. Increased client's revenue 2-fold after fine-tuning AI/ML-based algorithms. Highly motivated to apply my expertise and strong problem-solving abilities in a challenging new role.

EXPERIENCE

Software Engineer

Azumo   📅 05/2024 - 05/2025   ⚲ remote

- I work as a full-stack developer here, responsible for building, deploying and maintaining internal web applications.
- Developed indexed database architecture using SQL procedures and triggers for 10 different applications.
- Increased the performance of 20 customer-facing webpages and increased revenue by 40%.
- Developed and deployed microservice-based applications in AWS environment, increasing system reliability by 20% with strong emphasis on maintainable code.

Full Stack Developer

ITVibes   📅 07/2022 - 11/2023   ⚲ The Woodlands,TX

- Did all sorts of work such as React/Next.js app development, backend Nodejs/Postgres development, researching and investigating problem-solving technologies, as well as many devops-related GCloud, Terraform etc things.
- Wrote detailed technical documentation for APIs and microservices, increasing team efficiency and knowledge sharing.
- Examined and optimized front-end Javascript codebase, enhancing performance and reducing load times by 15%.

Software Engineer Intern

Accenture   📅 06/2020 - 07/2022   ⚲ San Francisco, CA

- Developed a booking application using React and Laravel to let users book a service online and get real-time updates on their progress, increasing the customer acquisition and retention rate by around 50% in three months.
- Collaborated closely with designers to create clean and intuitive, responsive interfaces for web applications, utilizing various front-end libraries and techniques such as React.js, Bootstrap, MUI and so on.
- Implemented real-time chat functionality using Web Sockets, Laravel Queue, Pusher, Laravel Echo, cron jobs, and integrated Twilio for SMS, Stripe for payments, and email notifications, etc.

EDUCATION

Bachelor's Degree in Computer Science

Texas A&M University   📅 2016 - 2020   ⚲ College Station, TX

STRENGTHS

Solid Technical Foundation
Proficient in modern frontend frameworks, Comfortable with backend technologies, Good understanding of databases.

Collaboration & Communication
Works well in Agile teams—participates in daily standups, sprint planning, and retrospectives.

Time Management
Efficiently balances multiple tasks and deadlines, Prioritizes work based on impact and urgency.

SKILLS

Javascript   Typescript   React.Js
Next.Js   React Native   JSON
Tailwind CSS   Material UI   Node.Js
Express.Js   GraphQL   PostgreSQL
MySQL   MongoDB   Github
Cypress   Jest   WebSocket   AWS
Docker

KEY ACHIEVEMENTS

Delivered Critical Features on Time
Successfully developed and launched major features or products that improved user engagement or revenue.

Improved Application Performance
Optimized frontend code to reduce page load times by 30% or more.

Increased Test Coverage
Implemented automated testing frameworks that improved code reliability and reduced bugs in production by 40%.
